

beauty at  
every age

what's right for me?

# WELCOME

---

We believe that no matter what age you are, you can, and should, feel beautiful. This guide takes you through some of the best treatments for every age, helping you discover ways to look and feel your best.

Please ask any of our staff members for further information on any of the treatments you may be interested in. We look forward to helping you meet your aesthetic goals. The various procedures described on the following pages may not be suitable for all patients.

During your initial consultation, Dr. Behroozan and his expert staff will discuss with you in detail the potential benefits and risks.

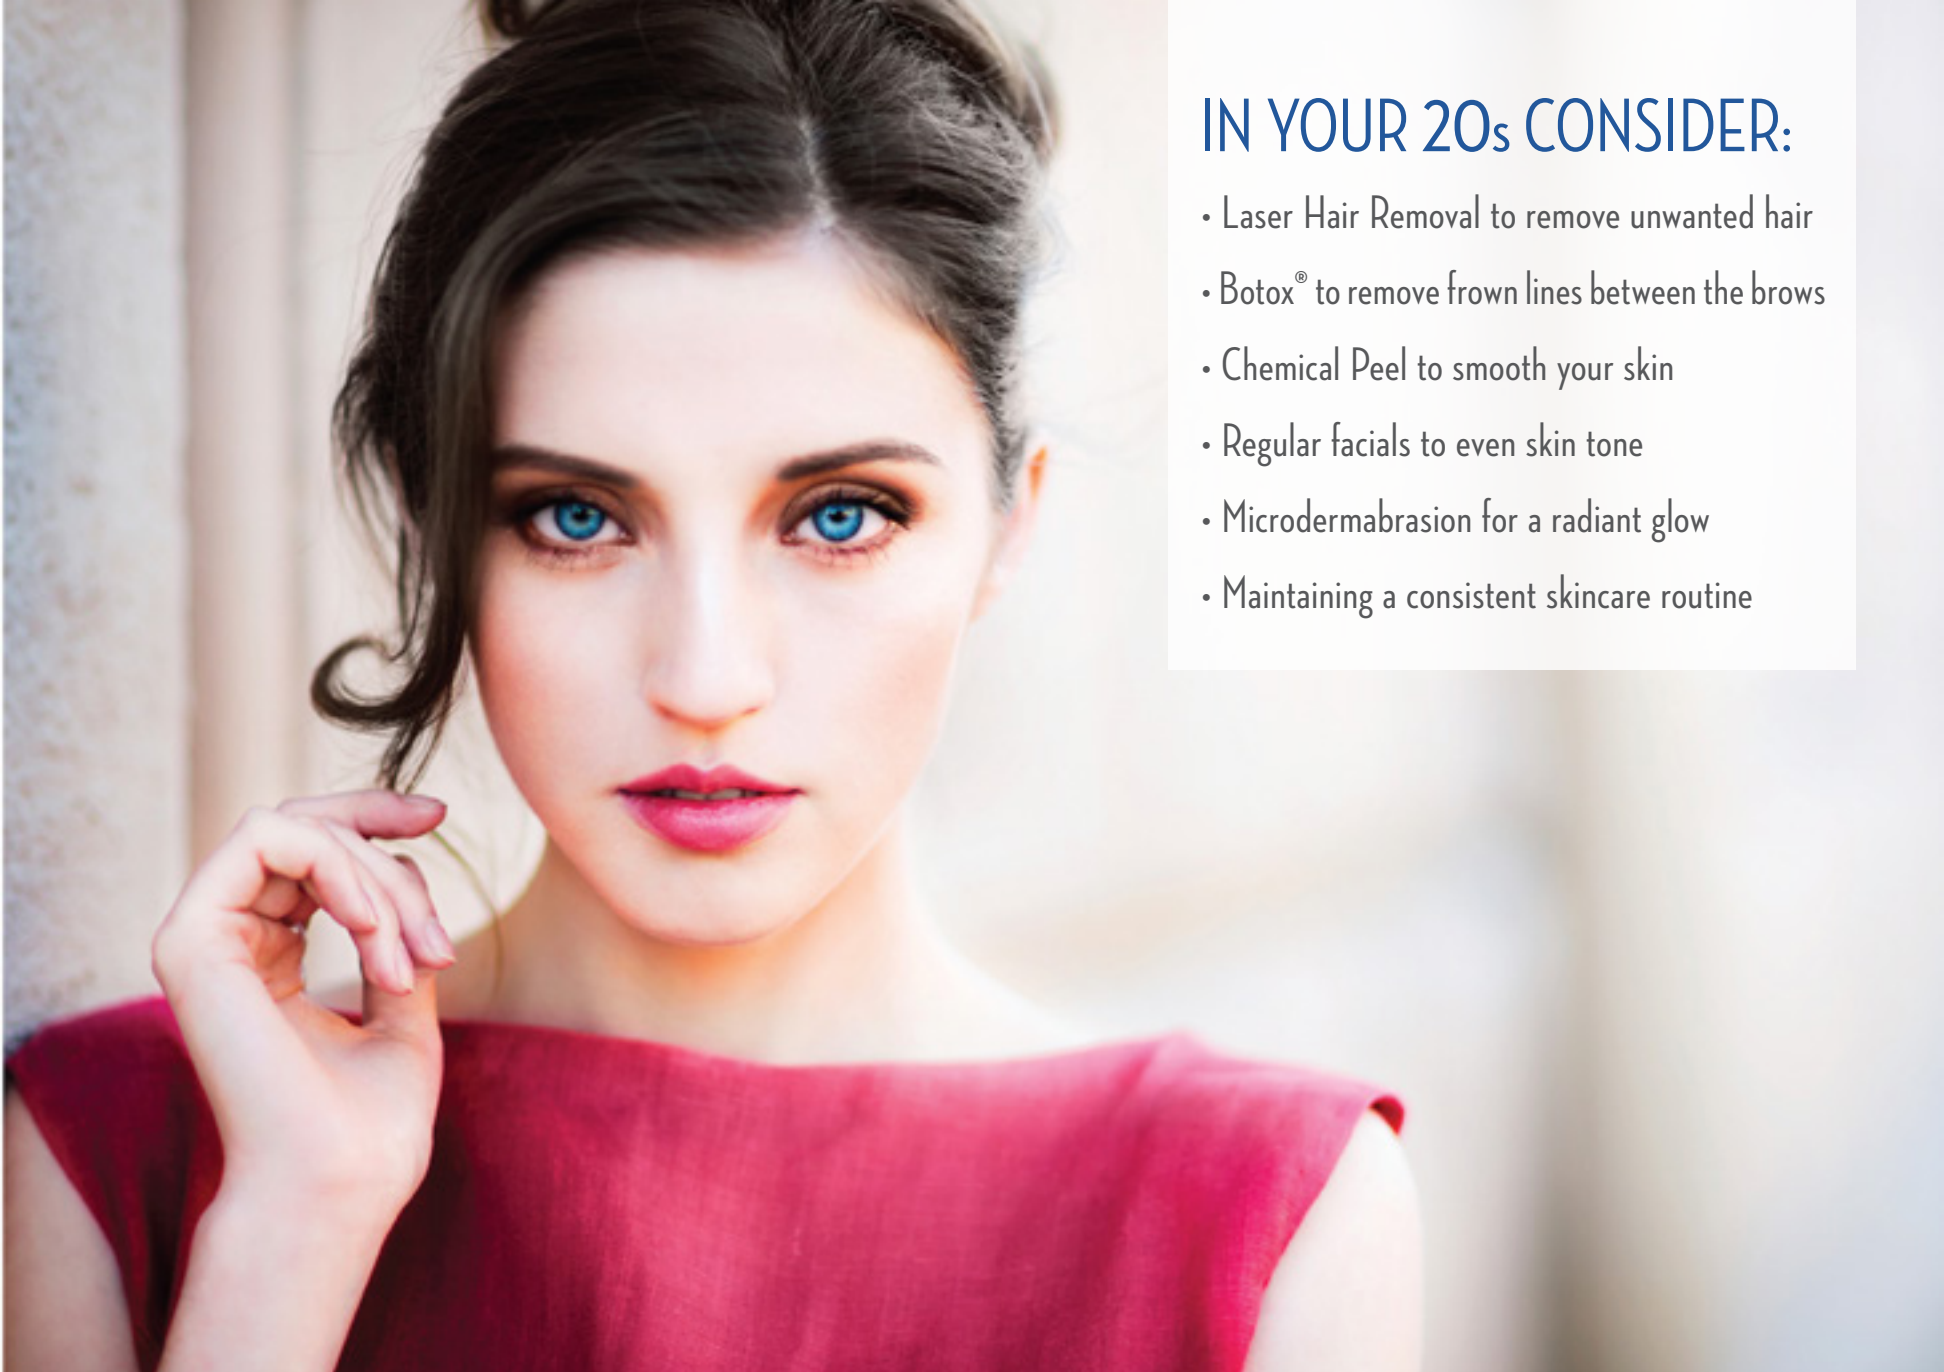

## IN YOUR 20s

---

You're young and in your prime! Now is the time to live life to the fullest and look and feel your best while doing it. We have many options available that can take you from every day to extraordinary!

Microdermabrasion is an effective treatment option for your age group. This procedure may assist in removing acne scars from your teenage years and improving the tone and texture of your skin. With your busy schedule, anything you can do to save time is well worth it. Try laser hair removal and you may never worry again about shaving. Little black dress, here you come!

## IN YOUR 20s CONSIDER:

- Laser Hair Removal to remove unwanted hair
- Botox® to remove frown lines between the brows
- Chemical Peel to smooth your skin
- Regular facials to even skin tone
- Microdermabrasion for a radiant glow
- Maintaining a consistent skincare routine

## IN YOUR 30s

---

You're in your 30s and feel like you were a kid just yesterday. It's difficult to start actively taking steps to prevent wrinkles and skin damage when you may show little-to-no sign of them yet. This is the time to be proactive. Keep your skin young and flawless with laser treatments to minimize years of sun damage.

Although you still feel young, you don't feel you look quite as bright-eyed as your twenty-year-old self. Using Neurotoxins, such as Botox® or Dysport® to soften frown lines between your eyes will give you that feminine look you love. Laser procedures to consider include Clear + Brilliant® or Fraxel® Dual.

## IN YOUR 30s CONSIDER:

- Laser Hair Removal to get rid of unwanted hair
- Chemical Peel to smooth your skin
- Botox® to remove frown lines between the brows
- Fillers for smile lines such as Juvederm® or Restylane®
- Regular facials to even skin tone
- Microdermabrasion for a radiant glow
- Laser to minimize sun damage
- Latisse® for eyelash enhancement
- Maintaining a consistent skincare routine

## IN YOUR 40s

---

You're in your 40s and you've never felt more comfortable in your own skin. Now it's time to match how you feel on the inside with how you look on the outside. There are many treatment options to get the look you've always wanted. Our doctors are highly trained in the art of fillers to soften your laugh lines. Now it's time to give your legs the attention they deserve. Take advantage of sclerotherapy or laser treatments and say goodbye to unpleasant spider veins and hello to that new dress!

## IN YOUR 40s CONSIDER:

- Laser Hair Removal to get rid of unwanted hair
- Chemical Peel to smooth your skin
- Botox® to remove frown lines between the brows
- Microdermabrasion for a radiant glow
- Laser to minimize sun damage and fine lines
- Fillers for smile lines such as Juvederm® or Restylane®
- Sclerotherapy to remove spider veins
- Latisse® for eyelash enhancement

## IN YOUR 50s

---

This is the time to focus on you again. You are independent, savvy and looking to age gracefully. Hormonal changes come around and you're faced with a transformation in your skin. Regular facials will prevent dry and thinning skin, the result of decreased estrogen levels. You've laughed a lot through the years and the signs are starting to show.

Get filler for those laugh lines and mid face, and have even more to smile about. Friends will wonder what is different about you; all they'll know for sure is that you look rested and refreshed. Laser procedures to possibly consider include Fraxel Dual laser or fractionated CO2 laser.

## IN YOUR 50s CONSIDER:

- Botox® to remove frown lines between the brows
- Chemical Peel to smooth your skin
- Microdermabrasion for a radiant glow
- Fillers for smile lines such as Juvederm® or Restylane®
- Sclerotherapy laser treatments to remove those spider veins
- Fraxel or CO2 fractional laser to improve sun damage and decrease fine lines
- Facials to improve skin's appearance
- Latisse® for eyelash enhancement
- Maintaining a consistent skincare routine

## IN YOUR 60s

---

Your beauty is more apparent than ever before — you're full of wisdom, knowledge and confidence. Take good care of yourself and disregard any prior notion you had about your 60s. Revitalize your skin with Fraxel laser or CO2 fractional laser treatment to improve sun damage and smooth out fine lines. This advanced procedure uses intense micropulses of light and heat to invigorate the skin and encourage new cell production. In the right physician's hands, you can avoid invasive procedures, but still get the facelift you've been considering for months — simply with the use of fillers. Don't be surprised when a stranger mistakes you for 10 years younger than you are!

## IN YOUR 60s CONSIDER:

- Botox® to remove frown lines between the brows
- Microdermabrasion for a radiant glow
- Fillers for smile lines such as Juvederm® or Restylane®
- Latisse® for eyelash enhancement
- IPL or laser treatments to remove spider veins
- Facials to improve skin's appearance
- Non-surgical facelift with filler to refresh your look
- Fraxel or CO2 fractional laser to improve sun damage and decrease fine lines

A woman with long dark hair is looking towards a doctor with blonde curly hair. The doctor is wearing a white lab coat. They are in a clinical setting with horizontal blinds in the background.

## SAFETY CONSIDERATIONS

Neurotoxins such as Botox and Dysport are serious drugs. Our expert physicians will discuss with you the safety considerations associated with their use, including the risk of the toxin effect spreading beyond the treatment area. Trust your skin only to a board certified dermatologist.

## MINIMIZE WRINKLES BETWEEN THE EYES: WITH BOTOX OR DYSPORT

Beauty at Every Age

*Before and after photos have not been retouched. Results may vary.*
